

Whole Numbers — Big Numbers Are All Around Us

Whole Numbers

Duration 45 Minutes

Curriculum Punjab Textbook

☒ Teacher is here ☐ This class works on its own ☒ Grade 4 ☐ Grade 5

Start · Hook — Whole Class

TIME

0-5 min

PAGES

1-3

Step 1 · I Do — Teacher Teaches Grade 4

☒ TEACHER HERE Grade 4

Read and write 5-digit whole numbers (up to 100 000) in a place-value chart, expanded form, and words.

☐ ON ITS OWN Grade 5

Read and write 6-digit whole numbers (up to 1 000 000) in a place-value chart, expanded form, and words.

Board Prep — Grade 4

Ten Thousands	Thousands	Hundreds	Tens	Ones
6	9	2	7	3

Board Prep — Grade 5

Hundred Thousands	Ten Thousands	Thousands	Hundreds	Tens	Ones
4	5	6	9	0	7

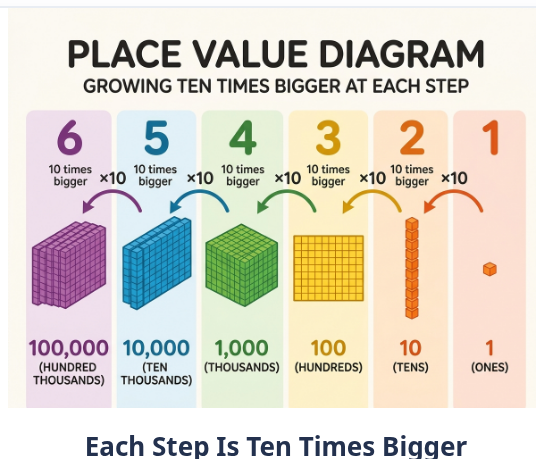

★ Step 1 · I Do — Teacher Teaches Grade 5

○ ON ITS OWN Grade 4

Read and write 5-digit whole numbers (up to 100 000) in a place-value chart, expanded form, and words.

● TEACHER HERE Grade 5

Read and write 6-digit whole numbers (up to 1 000 000) in a place-value chart, expanded form, and words.

PAGES

5-6

★ materials

chalk

paper digit cards 0 to 9

pebbles or sticks

★ grade4question

a) Bazaar mein sab se bari qeemat kya dekhi hai?

★ grade5question

a) Chaand kitna door hai — 363 104 ko kaise parhenge?

★ Amina Reads The Price Board

1 Step 1

Amina sees a price board in the bazaar.

2 Step 2

She reads it digit by digit: seven, eight, five, zero, zero.

3 Step 3

Her father puts each digit in its own place.

4 Step 4

Now she reads it: seventy-eight thousand and five hundred rupees.

★ Bilal Reads The Newspaper

1 Step 1

Bilal finds a number in the newspaper.

2 Step 2

391 000 kinds of plants grow in the world.

3 Step 3

He counts three digits from the right and leaves a space.

4 Step 4

Three hundred and ninety-one thousand.

★ grade4

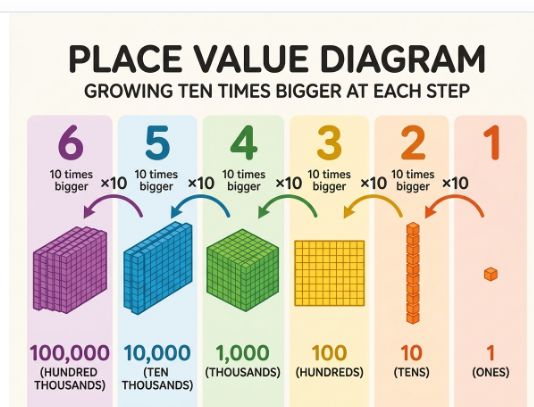

a) Amina ne pehle galat kyun parha?

★ grade5

a) Teen digit ke baad space kyun chhodte hain?

★ Each Step Is Ten Times Bigger

Move one place to the left and the value grows ten times: $1 \rightarrow 10 \rightarrow 100 \rightarrow 1,000 \rightarrow 10,000 \rightarrow 100,000$.

Each Step Is Ten Times Bigger

★ One Bundle For Every Place

Zero-cost materials: sticks, paper squares, pebbles represent 1, 10, 100, 1 000, 10 000, 100 000.

★ Leave A Space Every Three Digits

363104 is hard to read; 363 104 is easy to read = three hundred and sixty-three thousand, one hundred and four.

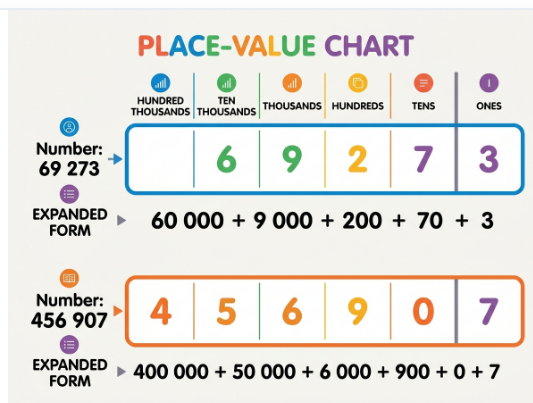

★ One Chart Teaches Both Classes

● TEACHER HERE Grade 4

Fill chart for 69 273. $69\ 273 = 60\ 000 + 9\ 000 + 200 + 70 + 3$. Say: sixty-nine thousand, two hundred and seventy-three.

○ ON ITS OWN Grade 5

Write in words: 290 014 · 433 453 · 910 009 · 871 653 (Mathematics 5, Exercise 1, page 5)

Place-value chart

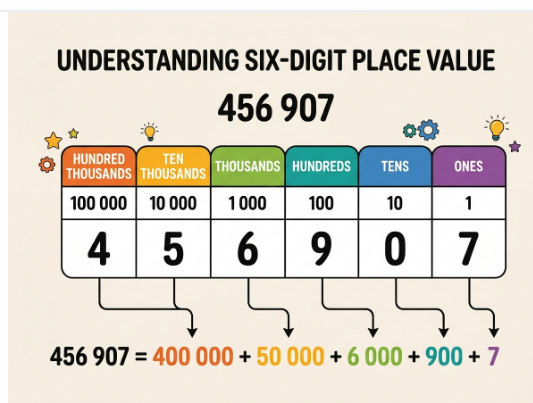

★ 16-26 min

○ ON ITS OWN Grade 4

Write in expanded form: 75 432 · 37 911 · 10 956 · 46 743 (Mathematics 4, Exercise 1, page 5)

● TEACHER HERE Grade 5

Fill chart for 456 907. $456\ 907 = 400\ 000 + 50\ 000 + 6\ 000 + 900 + 7$. Say: four hundred and fifty-six thousand, nine hundred and seven.

Six-digit place-value chart

★ Sab Se Bara Number

Grade 4

Make the greatest 5-digit number. Answer: 76 532

Grade 5

Add one more card and make a 6-digit number.

★ 35-42 min

● TEACHER HERE Grade 4

Write in words: 74 325 · 43 711 · 19 560 · 75 434
(Mathematics 4, Exercise 1, page 5, Q4)

○ ON ITS OWN Grade 5

Write in expanded form: 131 441 · 600 900
(Mathematics 5, Exercise 1, page 5, Q2)

★ Teacher Rotation

2 min with Grade 4 <-> 2 min with Grade 5. Never more than 3 minutes with one class.

★ 42-45 min

Grade 4

Today we read and wrote 5-digit numbers up to 100 000 — in the chart, in expanded form, and in words.

Grade 5

Today we read and wrote 6-digit numbers up to 1 000 000 — in the chart, in expanded form, and in words.

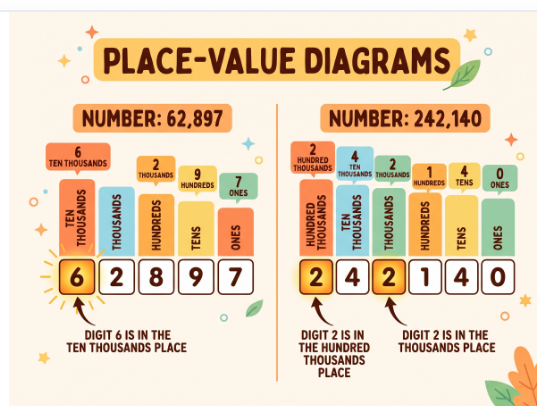

★ Reasoning

a) Write 62 897 in words. Is the 6 worth 6 or 60 000? How do you know?

→ 60 000, because it sits in the Ten Thousands place.

b) Write 242 140 in words. The digit 2 appears twice. Is it worth the same both times? Why?

→ No — one is worth 200 000 and the other 2 000.

Digit value reasoning

★ Additional Resources

Grade 4

Mathematics 4, Exercise 1, page 5, Q4 (e) to (h): write 67 459, 25 302, 36 721 and 78 065 in words.

Grade 5

Mathematics 5, Exercise 1, page 5, Q2 (c) to (f): write 949 181, 466 456, 286 019 and 479 321 in expanded form.
